

**Notice to Parents/Guardians**  
**Child Nutrition Department**  
**Use of Food Service Accounts and Charging**

**School Year 2011-2012**

We would like to take a few minutes to remind you to keep your student meal account here at school up to date. Our Child Nutrition Program is self-funded, running without monetary aid from the School District or Town of Derry. We rely heavily on student meal payments to keep our own payables current, so we appreciate all your efforts to keep money in your student accounts.

We will allow students to “charge” a lunch meal, if they have no money, up to a maximum of \$5.00. After that amount is reached, the student will be fed a meal of our choice. However, because negative balances around the district have risen, in the past, close to \$15,000.00, we will not allow students to “charge” a breakfast meal.

We suggest that you count on a minimum of \$15.00 to \$20.00 per week depending upon how often and which meals your student eats ... if you let them have seconds or double portions ... if you let them buy snacks... ...if your child eats breakfast at school.

We do not, at any time, allow a student to “charge” a snack or snack milk or juice or any extra a la carte items or any seconds or doubles. The student must have cash or money in their account to purchase these items.

At the elementary schools, we try to send notices home as often as possible to let you know your student balance, negative or positive. However, relying on this notice alone will not completely help you to keep track of your student account. There is sometimes a time delay between when we print the letters and when you actually receive them. At the middle schools, cashiers tell students their balances as they go through the point-of-sale every day. We encourage all parents/guardians to call the kitchens directly to check on the status of your student accounts. Get to know our Staff in the Kitchens; they are parents, just like you, and they will help you keep track of your student accounts.

Any questions regarding this notice can be directed to your school's Kitchen Manager, or to the Child Nutrition Central Office or Director's Office...432-1231
